- KPX-하와이간 MOU체결 이후 신재생 간헐성 대응 보조서비스용 Fast DR 시장제도 및 운영 업무공유
- 해외 선진 전력시장 현황 및 수요시장 운영방안 등 정보 수집
- 수요반응 자원 운영관련 해외 유관 기관과 인적 네트워크 형성

※ KPX-HPUC-HNEI 3자간 국제협력양해각서(MOU) 체결완료(19.11.26)

- 전력시장 규제 및 감시, 재생에너지 정책·발전량 예측 관련 교류방안 협의
- 전력산업 및 정책 수립 관련 양 기관 간 전문인력 교류방안 협의
- 제주·하와이 간 주기적 방문 세미나 개최방안 협의

5. 해외사무소 협조

- 해당사항 없음

6. 국외출장심사위원회 필요성 여부 검토 결과

- 본 출장은 국외 Fast DR 운영기관의 전문가 기술자문을 받기위한 목적으로 Fast DR 연구과제 협약시 사전 심의된 계획 일정으로 전력거래소 국외여비 예산을 활용하여 시행
- 따라서 총무규정 제19조 5항에 명시된 출장심사위원회의 심사 대상이 아님

출장심사위원회 대상 항목	검토 결과
- 여행경비 전부 또는 일부를 거래소 이외 기관, 민간, 개인이 부담	- 전력거래소 예산으로 진행
- 각종 시찰, 견학, 자료수집 목적	- 하와이 전력회사(HECO)의 Fast DR 담당자 및 HNEI 연구소 교수와의 세미나 참석 및 Fast DR 참여기업 현장 실사 목적
- 단체 출장 또는 포상 격려 목적	- 해당사항 없음

1. 출장목적

- KPX-하와이간 업무교류 MOU체결 이후 Fast Demand Response 연구과제 기획 당시 벤치마킹한 하와이 전력회사의 DR시장 운영 업무공유
- 신재생 증가로 인한 간헐성 확대 대응을 위한 효율적인 DR자원 운영 방안 논의
- Fast Demand Response 프로그램에 실제 참여중인 현장방문 및 자동화

[Hawaiian Electric Company Fast Demand Response Program]

What is Demand Response?

Demand response (or DR) is a partnership between customers and the electric utility in which customers reduce electricity use (or demand) in response to requests from the utility. In return, the utility rewards customers who are willing to temporarily reduce electricity use.

DR keeps the grid stable and reliable, which means lower electric costs for everyone.

The utility may issue a request for demand responses:

1. During certain periods of peak energy use
2. When grid reliability is jeopardized or
3. To assist in integrating or accepting renewable energy resources onto the grid.

What is Fast DR?

Fast DR is designed to reduce electricity demand in near real time in response to grid changes, such as unexpected spikes in energy use, when electricity generation may not be sufficient to meet peak load, or sudden drops in wind or solar generation. For commercial and industrial customers who qualify, Hawaiian Electric places automatic or semi-automatic controllers on nonessential equipment.

While Fast DR requires some automation, customers always maintain complete control and can opt out of having their demand impacted at any time. Participating customers may not rely on backup generation during demand reductions.

Typical loads to be reduced:

- Any non-essential process or equipment
- HVAC use
- Non-essential indoor and outdoor lighting, signage or window displays
- Fountains, saunas, pool or hot tub heating and pumps
- Excess elevator banks or escalators (as permitted)

How can you help us **add more renewable electricity to the grid?**

How can you help us **control demand for electricity during critical energy situations?**

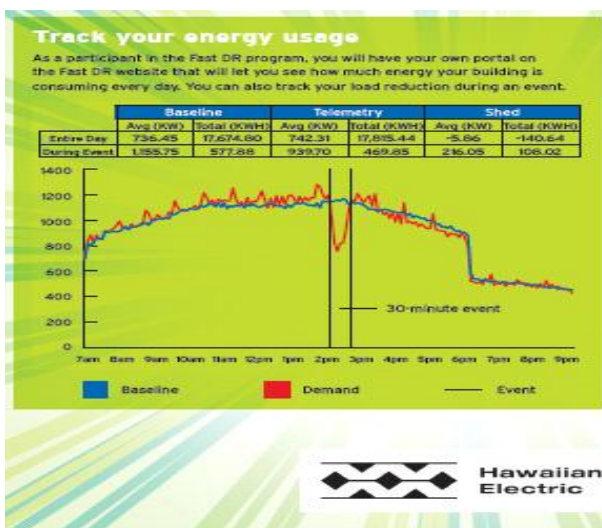

How can you take **\$3,000 or more off your electric bill each year?**

Fast Demand Response lets us temporarily reduce your energy use, and **rewards you for participating.**

Be a clean, lean, green company.

Fast DR

For more information, call **Fast DR at 94-POWER (947-6937)** or visit **dr.heco.com**.

The Fast DR promise:

\$3,000+

in electricity credits.

If your company qualifies and you designate a minimum of 50kW of electricity use per month to Fast DR, you will receive:

NOMINATED LOAD INCENTIVE	ANNUAL DR EVENT FREQUENCY
\$5 per kW/month	0 - 40
\$10 per kW/month	41 - 80

LOAD REDUCTION	ELECTRICITY CREDIT
50kW per month at \$5/month	\$250 per month/ \$3,000 per year
100kW per month at \$10/month	\$1,000 per month/ \$12,000 per year

Electricity credits are also based on customers' participation levels during DR events.

Hi Yeojun,

Happy to have you visit us the week of December 16th.
Currently the preferred date to meet is 12/19 or 12/20.

If you have any questions already, please send us over so we are prepared to have a productive meeting with you.

Hi Mark,

I will keep you informed on our schedule, if you are interested in joining, please do!

Aloha,
yoh

Mark B. Glick

Specialist

Mark Glick is a tenure track faculty of the Hawaii Natural Energy Institute, overseeing energy policy and innovation and coordinating State and University of Hawaii assets towards fulfillment of Hawaii's ambitious energy transformation and supporting similar objectives in the Asia-Pacific region and beyond. Glick previously served five years as Administrator of the Hawaii State Energy Office where he led Hawaii's internationally regarded clean energy transformation efforts. He also served as Vice Chair of the National Association of State Energy Officials (NASEO), the only national non-profit association for energy officials from each of the 56 states and territories with the purpose of advocating for the interests of the state energy offices to Congress and federal agencies. Selected highlights of his tenure as Hawaii's Energy Administrator include: 1) exceeding Hawaii's 2015 interim renewable portfolio and energy efficiency portfolio standards; 2) contributing to passage of the nation's first 100 percent renewable portfolio standard and interim goal of 30 percent RPS by 2020; 3) leading the nation for five consecutive years in the per capita value of energy savings performance contracts; 4) spearheading the statewide Programmatic Environmental Impact Statement process culminating in publication by the U.S. Department of Energy of a programmatic EIS that examines the potential environmental impacts of energy efficiency activities and renewable energy technologies that could assist the State of Hawaii in meeting the goal established under the Hawaii Clean Energy Initiative; and 5) overseeing all energy related regulatory filings and legislative testimony of the Department of Business, Economic Development and Tourism.

Yuji Hata

VICE PRESIDENT
DIRECTOR OF PROPERTY MANAGEMENT

Yuji is a highly motivated and experienced real estate professional. With his accounting background and fluency in Japanese, he was able to take on an accounting position and a property manager position for Japanese owners. Over the years, he has managed a number of Class A and B office buildings as well as retail and industrial properties. He has vast experience and knowledge in tenant retention and relations, lease administration and compliance, vendor negotiation and management, budget development and CAM reconciliations, development of safety systems and emergency procedures. Yuji joined Cushman & Wakefield ChaneyBrooks in 2012 and was assigned to manage Waikiki Galleria Tower, a prominent Class A retail/office building in the heart of Waikiki with unimpeded Kalakaua street frontage. His courteous tenant relationship, detail-oriented workmanship, and his natural ability to get the job done in a timely manner has earned his trust among tenants and property owners. Besides Waikiki Galleria Tower, his current portfolio includes 'Olelo Community Media, a non-profit local broadcasting, and 808 Center, a mixed-use retail property to name a few. Yuji was promoted to Director of Property Management in 2016 where he oversees all the property managers and ensures timely and quality services are delivered to our clients. Yuji has volunteered as a Scoutmaster and is currently a high school Air Rifle coach for Pac 5. He is a State Junior Air Rifle Coordinator for the National Rifle Association and Civilian Marksmanship Program.
